Algorithms and Data Structures (Java)   3D Animation (Autodesk Maya)
Fair Division in Theory and Practice (Java)   Principles of Marketing

EXPERIENCE

Senior Online Editor, Student Life, St. Louis, MO   **August 2014 – Present**
Student Life is Washington University's only independent newspaper.
- Administered the main website, studlife.com and performed back-end maintenance of servers
- Updated the site with new articles on a semi-weekly basis
- Trained new online staff at Student Life
- Assisted in major redesign of the website making it responsive and using newer web standards

Intern, EazyFriday, Mumbai, India   **Summer 2015**
- Full stack development of a responsive website, along with a web API for a mobile app. The eCommerce website, www.eazyfriday.com was built using Meteor.js and MongoDB. It serves as an online marketplace for home services

Teaching Assistant, Washington University in St. Louis   **August 2014 – Present**
CSE131 – Computer Science 1
- Introduced students to computer programming using Java, for around 7-9 hours every week

Intern, DigitasLBi, Mumbai, India   **Summer 2014**
- Helped build a Facebook applet for Tata Motors, using MySQL and PHP, to help promote the launch of their new car, Zest. Over 5000 people signed up to use this applet

Intern, Vakils Premedia, Mumbai, India   **Summer 2012**
- Developed an eBook of 'Miss Muglee Goes to Mumbai', for the Akanksha Foundation. The eBook has since been published to the Apple App Store
